

FULL CLEAR PATCH FILM – 0.6MIL

Technical data & Specification

Lamination ribbons represent the latest in card adhesion and durability technology protecting cards from wear-and-tear of daily use. The R4211 ribbon allows the application of 0.6MIL thick patches.

General Specification

• **Type:** Security ribbon

• **Features:** Full Clear Patch – 0.6MIL

The lamination ribbons are in polyester. The protective films provide a high level of adhesion, durability and security protection to PVC or composite cards. The films apply over the card stock printed with dye sublimation printing technology. Those ribbons have several properties such as an extreme durability and protection from water and humidity, a protection from household cleaners, an excellent adhesion to card surfaces and excellent clarity.

• **Storage Information:** It is recommended that this product is used within one year. Avoid dust, direct sunlight, high humidity and high temperatures. Do not place near solvent or other chemicals.

Compatibility and printing capacity

• **P/N R4211:** Securion. Up to 200 prints per roll.

Advantages

Your cards are protected from wear-and-tear of daily use.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.

Use Evolis High Trust® ribbons to keep off defects and to benefit from high-quality printouts and at an optimal cost-per-card.

Evolis card printers + Evolis High Trust® consumables = the winning combination!
