

1/2 YMCKOKO COLOR RIBBON DATASHEET

The ½ YMCKOKO ribbon is the ideal solution when you personalize just one part of your card in color (cards featuring a colour ID photograph) and some black resin printing (for text, logo and barcode) on both sides of the card.

This ribbon has the same specifications as the standard full panel YMCKO color ribbon but the Yellow, Magenta and Cyan panels are half the length as described below:

General Specifications

- Type: Color Ribbon
- Description: Half-Panel YMCKOKO
- Features: The color ribbon is polyethylene terephthalate (PET) with thin layer of specialized coating. The concentration of colorant is very low and they are insoluble in water. In the printing process they only diffuse at temperature above 50°C. The color ID picture length must not exceed 35mm and 54mm for the height, but can be placed anywhere on the card.
- Storage Information: The ribbon shall be capable of functioning for up to 1 year after purchase if stored in a cool, dry environment and having remained unopened from the original packaging. Temperature of storage must be between 10-25°C and at RH between 30-70%. Once opened the ribbon shall have a lifetime of 3 months if stored under cool, dry conditions. Avoid dust, direct sunlight, high humidity and high temperatures. Do not place near solvent or other chemicals.

Compatibility and printing capacity

- P/N: R7H006NAA
- For Primacy and Elypso printers
- Up to 250 prints per roll

Advantages

- An advantageous cost per card regarding to the standard YMCKO / YMCKOK color ribbons when you personalize in color just a part of a card.
- Compatible with materials such as PVC, Composite PVC, PETF and thermal paper cards¹
- The protective Overlay on both sides of the card allows a better lifespan of the card and of your printing.

Use Evolis High Trust® ribbons to keep off defects and to benefit from high-quality printouts and at an optimal cost-per-card.

Evolis card printers + Evolis High Trust® consumables = the winning combination!
