

## Powered Label Dispensers

LD-100-RS

**The LD-RS Type Automatic Label Dispensers for all regular labels (not for transparent or black labels).**

The LD-100-RS and LD-200-RS Label Dispensers offer state of the art convenience and durability. Using the latest opto-electronic technology, there is just one simple adjustment for label length.

A special Reflective Sensor sits below the label and reliably and accurately senses the leading edge of your label. As you pick up a label the next one is automatically and instantly advanced. The modern design presents the label right at the front of the machine, providing optimum convenience for both left-handed and right-handed operators. A "HIGH-LOW" Speed Switch allows adjustment for label length or operator preference.

There are no mechanical position switches to cause adjustment or operational problems. The heavy-duty product design will stand up to the most demanding environments.

## Automatic Label Dispensers with enhanced label sensing and easy set-up.

- Two different sensors to cover all types of labels.
- New bail for easier handling of the backing paper.
- Optionnal Adjustable "Wearless" Brake system (AWB) to facilitate peeling of the labels.
- 3- Years Parts and Labour Limited Warranty.

**The LD-U Type Automatic Label Dispensers using a new "state of the art" reflective detector that allows the machine to dispense all types of labels, including transparent and black labels.**

The LD-U range is using a compact photoelectric sensor with optic-fibre cable. The LD-100-U and LD-200-U offer the same advantages, convenience and durability as the popular LD-RS models with the extra benefit of dispensing any kind of labels.

Both models of LD-RS and LD-U are available in "SS" version, that features a stainless steel chassis and cover and can be used in humid environment. They are ideal for food industry and pharmaceutical applications.

**The LD-S Type for very small, long or unusual shape labels.**

The LD-100S or LD-200S do not have a sensor detection; the foot pedal allows you to continually advance labels at the rate you choose. The LD-100S and LD-200S also include an ON-OFF Foot Switch for production applications. It is ideal for very small or long labels.
